

Instructions for switching to the IOT dialup system

Open the existing dialup connection.

Enter the new information (as described in the text boxes to the right)

Connect ISDH Toll Free

User name: .username.care.isdh

Password: [To change the saved password, click here]

☒ Save this user name and password for the following users:

☐ Me only

☒ Anyone who uses this computer

Dial: 8, 1 800 434-1301

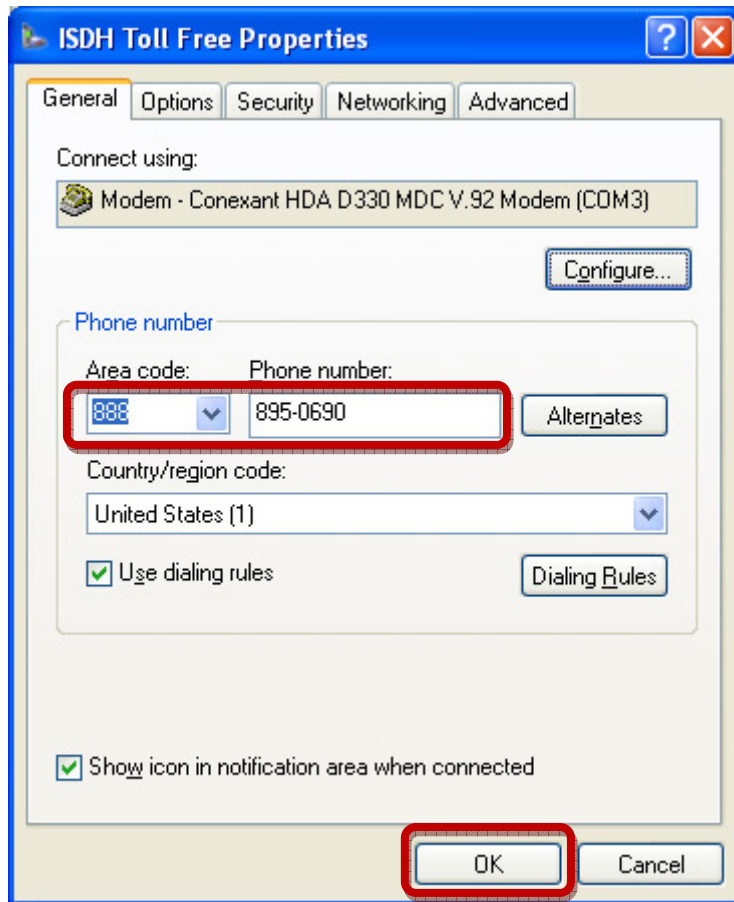

Dialing from: Dial 8, [Dialing Rules](#)

[Dial](#) [Cancel](#) [Properties](#) [Help](#)

Change username from
.username.care.isdh to
isd-shared\username.

Click in the password field and enter
the password you use to login to your
computer (this is the password
required by Outlook/dialup).

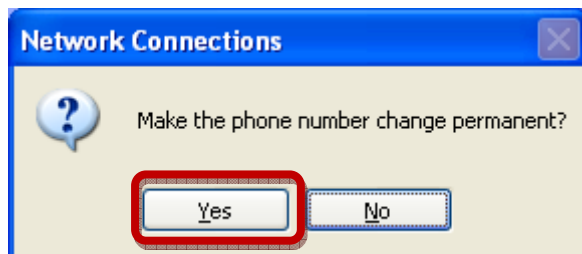

Select Properties

Update the area code and
phone number as shown:
AREA CODE: 888
PHONE NUMBER: 895-0690

Click OK

When you click dial you may be asked to make the phone number change permanent; click Yes.

Click Yes

If you also have an 'ISDH Local' connection, you can update it as well. The phone number for that connection is (317) 237-4834.
